PROFESSIONAL EXPERIENCE

2024 - 2025
6 months

React Developer
- PickPlugins
Develop and maintain scalable React applications with reusable components and efficient state management. Integrate APIs using REST, GraphQL, or WebSockets, optimize performance with lazy loading and memoization, and ensure code quality through testing and debugging. Collaborate with designers and backend teams to deliver responsive, high-performance web applications.

2023 - 2024
1 year

WordPress Plugin Developer
- PickPlugins
Develop and maintain WordPress plugins using PHP, JavaScript, and WordPress APIs, extending functionality with custom post types, taxonomies, and shortcodes. Create custom Gutenberg blocks with React, optimize performance, ensure security, and maintain compatibility with updates while debugging and troubleshooting issues.

2022 - 2023
1 year

Front end Developer
- PickPlugins
Developed web sections and landing page layouts using Gutenberg Editor and ComboBlocks plugin, ensuring responsiveness, performance optimization, and seamless user experience. Collaborated with designers to implement visually appealing and functional UI components.
